38 foot steel Pilot House Ketch

The vessel has extensive wastage to the lazarette area. However, the rest of the hull and deck structure is sound with adequate steel thickness to warrant restoration. This is a worthwhile project for the right person or team.

The giveaway offer is for:

- The vessel 'as is' on the cradle
- Steel plating for repairs
- Stainless handrails
- 240V/12V/Gas fridge
- Timber main mast with heavy stainless rigging & turnbuckles
- Full set of near-new battened sails
- Mizzen sail & rigging (the mast has snapped)
- The spare parts currently aboard
